

INSTRUCTIONS FOR PROPER STRAP & BUCKLE DEPLOYMENT

STEP 1
Hold the strap in one hand and the Buckle in the other.

STEP 2
Slide the strap through the top front opening of the buckle.

STEP 3
Pull the strap through from behind the buckle.

STEP 4
Pull enough strap to feed it through the next opening.

STEP 5
Thread the strap through the bottom middle section.

STEP 6
Pull the strap through the top middle section.

STEP 7
Pull enough strap again to feed it through the next opening.

STEP 8
Position buckle to slide strap through the top back section.

STEP 9
Thread the strap through the top back opening.

STEP 10
Pull the strap through from the rear of the buckle.

STEP 11
Hold the buckle firmly, and pull the strap until it is tight.

STEP 12
Thread the strap under the top center section.

STEP 13
Firmly grip the strap and begin to pull it through.

STEP 14
Hold the buckle securely, and pull the strap until it is tight.

STEP 15
The buckle is now tight and secure.
